About Us

NAYKA TEKSTİL was established in 2003 Denizli/Turkey as baby clothes manufacturing company. Besides NAYKA TEKSTİL is a manufacturing company, and makes exports to many European countries. Our company is producing children's clothing and babies care with a wide range of products.

NAYKA TEKSTİL's customers are from all over Europe such as United Kingdom, France, Germany, USA, Canada, Japan, Holland, Sweden, and etc. One of the main principles of NAYKA TEKSTİL confidential delivery carrier to ensure all orders arrive safety and as quickly as possible. Nayka prepares its collections with field experts, young and dynamic team in accordance with current fashion line. Nayka giving priority to quality in production left its mark in baby clothing industry. Also our company have lots of organic certificates such Gots, Oeko Texsclass 1, GOTS (Global Organic Textile Standard Certifications), STeP/made in green, RCS, GRC, ISO 14001, and ISO 9001

We manufacture and export 400.000 units of baby garments per month. The cutting department performs its computer-aided operations with a daily capacity of 15.000 pieces, and also DENİZLİ KAYA TEKSTİL is our knitting factory, producing 800 tons of circular knitted fabrics per month. We also have a specialized Development and Sourcing Team in Denizli/Turkey. The vast majority of our garments are made using Turkish fabric, and we operate on a delivery time of 4 to 6 weeks.

About Us

Before accepting goods into the warehouse, all necessary tests (functionality, durability, nickel test, wash-fastness, etc.) are performed to determine the suitability of input goods for manufacturing. Other than tests performed during production, some post-production tests are run such as home-washing, wet and dry friction fastness, accessory endurance etc.

Nayka places great emphasis on strict implementation of the “broken-needle procedure” at all production

Nayka places great emphasis on strict implementation of the “broken-needle procedure” at all production units. All batches of fabrics are subject to standardized width, length, weight, blanket, wing, tension and twisting tests to ensure that only conformant fabrics are conveyed to production units. The Team conducts input and output controls of accessories.

From Turkey to the World,
with **Precision and Passion!**

Sustainability and Recycling

As Nayka Tekstil, We Care for the Future!

We have adopted environmentally friendly practices in all of our processes from the very beginning of production to the final products. Because we know that the adverse impact of the textile and clothing industries on our world is ever-increasing, we focus more on practices that protect and preserve the environment and nature. We strive to concentrate on environmental practices in our ecology-based productions.

By mitigating environmental pollution through our Environmental Management System, we aim to continuously improve our environmental performance. To reduce our environmental impact, we meticulously ensure to obtain all necessary permits required by the Environmental Law and to meet its requirements.

Sustainability and Recycling

We strive to define and achieve targets such as mitigating hazardous wastes and saving natural resources during our production processes. By considering the utilization of natural resources, we remain highly attentive in choosing both techniques and materials with the principle of 'optimum productivity and minimum environmental pollution'.

In order to enhance our environmental performance, we provide regular training sessions for our employees and organize events to increase environmental awareness. As the key issue threatening sustainability in the textile industry is "waste," we attach great importance to waste disposal throughout every corner of our facility. As Nayka Tekstil, We Care for our Family!

One of Nayka Tekstil's greatest successes is its corporate family. Our devoted and sharing approach reflects our corporate values, which include all our stakeholders and employees. We aim to do our best by developing and valuing our productions—and most importantly, by doing it with love. Another one of our core principles is our strong belief in equal opportunities.

Therefore, 70% of our entire personnel consists of female employees. With our commitment to the principle of family awareness, our corporate identity continues to grow and evolve day by day.

Bedding Accessories

Sleeping Bag Pillow/Cushion Fitted Sheet
Duvet Set Blanket Swaddle
